IMPORTANT

EACH TILE IS DECORATED AND MADE TO ORDER SO DESIGNS AND COLOURS MAY DIFFER SLIGHTLY FROM THE IMAGES SHOWN ONLINE.

CARE

For tile longevity, we recommend that you limit exposure to direct sunlight to ensure no colour fading occurs. Steer clear of abrasive pads, steel wool, metal brushes, or scouring pads, as they can scratch the glaze.

CLEANING

Use a mild, non-abrasive, pH-neutral cleaner to clean your tile surfaces. Choose a cleaner that is free from harsh chemicals or abrasives that can harm your tiles.

To make one yourself by filling a spray bottle with 1/4-cup baking soda, 2 tbsp. dish soap and 2 cups water. Squirt the spray over the tiles, and wipe down with a damp cleaning rag. Wipe the tile with a damp cloth once more, and follow with a dry towel to prevent water spots.

LEAD TIME

Please allow up to 4 - 6 weeks for orders to be prepared and shipped, however; we tend to fulfil them sooner. If you would like a more specific timescale, please contact us at info@petrapalumbo.com

TILES PACKAGING

Our tiles are delivered to you in full recyclable packaging using FCA cardboard boxes.

Petra Palumbo

GROUT AND SPACING

We tend to suggest using plain white grout due to the handmade quality of the tiles with the slightly rough edges as it will give a subtle effect.

However, it's a completely personal choice to use coloured grout and can look amazing.

A contrasting grout will emphasise lines and the design.

You can find wall tile grout in multiple different colours on Amazon or your local bathroom / tile shop.

We suggest a minimum grout line of 2mm. Any larger gap is a matter of design and installation choice.

BESPOKE

Have something special in mind?

Design your very own delft tile and we'll make it for you. Whether it's a wedding, birthday or present to yourself we can create bespoke hand decorated tiles for any occasion.

Please email info@petrapalumbo.com with your idea and we'll take it from there.

*Please note:

Minimum tile order to include bespoke is £ 500

RATIO

We get asked what should be the tile design to corners only ratio and to be honest it's an entirely personal preference, some people prefer more minimal, others not but as a general rule of thumb, we suggest about 30%-40% design tiles and 60%-70% corners only.

Most professional decorators will want extra tiles for wastage which is about 10% so please bear that in mind when ordering.

TRIMS

We offer a beautiful selection of ceramic tile trims with different profiles in matching colours to our Delfts. Trims give a clean and professional finish to your tiling project, whilst protecting the edges of your tiles for a long lasting result.

TRADE

We offer a trade discount to interior decorators, should you be interested, please download our trade form from our website (it can be found in the footer).

Alternatively, feel free to drop us a line at info@petrapalumbo.com

LAYOUT IDEAS

Think kitchens, bathrooms, showers, laundry and boot room, guest WC, around the fireplace, door frame or splash back. Make sure you take structural pieces that can't be moved into consideration ie. the stove, sink...etc.

We suggest laying all the tiles out on the floor and playing around with different options to create the pattern you like most.
