TILE CARE

Taking care of your Petra Palumbo tiles keeps them looking fresh and helps them last longer. Regular cleaning prevents things like cracks or mould, so you won't have to worry about costly repairs later. Plus, it helps keep your home looking great.

CARE

For tile longevity, we recommend that you limit exposure to direct sunlight to ensure no colour fading occurs. Steer clear of abrasive pads, steel wool, metal brushes, or scouring pads, as they can scratch the glaze.

CLEANING

Use a mild, non-abrasive, pH-neutral cleaner to clean your tile surfaces. Choose a cleaner that is free from harsh chemicals or abrasives that can harm your tiles.

To make one yourself by filling a spray bottle with 1/4-cup baking soda, 2 tbsp. dish soap and 2 cups water. Squirt the spray over the tiles, and wipe down with a damp cleaning rag. Wipe the tile with a damp cloth once more, and follow with a dry towel to prevent water spots
